

## GRADE methodology, 1 day workshop – Antwerp, Belgium

### Interested in learning more about the GRADE approach for developing Systematic Reviews and Clinical Guidelines?

**The GRADE approach reflects ‘best practice’ in terms of clinical guideline development and has been endorsed by organizations across the globe.**

Members of the GRADE Working Group are offering this 1-day GRADE workshop taking place in Antwerp, Belgium as a post-conference workshop following the JBI Colloquium. The 1 day workshop is designed for systematic reviewers, guideline developers and others wanting to learn more about GRADE methodology, particularly the creation of Summary of Findings tables and Evidence Profiles. The course includes information on the theory of GRADE along with hands-on activities.
